

Chimba Secondary School
Northern Province

11th August 2020

To Mr. Warren Doud,

Greetings in the blessed and gracious name of our Lord and Saviour Jesus Christ. It is my prayer you are fine. I am Chambwilo Moses and I am writing to you from Northern at Chimba Secondary School. I started studying Grace Notes more than a year now. When I got enrolled in Grace Notes, I did not know how to read the Bible and I was not a Christian. I join the grace just to pass time because there was a girl in the class whom I liked very much. I promised love to this girl but she rejected me because I was not a Christian. Therefore, in order to win her heart, I had no option but to enrol as a student of Grace Notes. When the Instructor started teaching us about sins such as fornication, adultery, smoking and other vices I thought he was referring to me because I used to do these things. I got annoyed and stopped attending classes for two weeks. The Instructor followed at home to find out why I was not coming to Bible Class. After knocking off I used to run away to avoid the instructor. I explained to the instructor at home that he hated me that is why he was talking about me negatively. In his response, the instructor said he did not know that I was doing all the vices that I had mentioned. He went on to explain that God loved me and that I needed to give my life to Christ. He read the Bible in the Book of Romans to show me that I was lost. After reading the word of God, he prayed for me and I felt touched by the word of God and the instructor led me into confession prayer; that is how I received Jesus Christ.

From that time, my life has been transformed. I am now a changed person. I have been studying Grace and I have become a mature Christian. I teach in Church and so far I have witnessed to more 50 people and they have accepted Jesus Christ as their Personal Saviour. During this time when schools are closed, I have been using the time studying Grace Notes at Home and witnessing to my fellow pupils. Grace Notes lessons are wonderful lessons. My parents have also been transformed just by reading the lessons. They were going to Roman Catholic Church but now they have changed the church; they go with me to Chimba Baptist Church. They say what is taught at Roman Catholic Church is nothing but traditions of men. They cite the mentioning of Mary in prayers as idol worship which is not biblical. My parents decided to believe in the Gospel when they saw that my life had changed. They asked me why my behaviour was no longer bad as it used to be. In response I gave them a copy of Doctrine 100 lessons which they read together as husband and wife and then they invited the instructor home for clarification. That is how mum and dad gave their lives to Christ. My father would like to start a class to teach his fellow adults but he has no printer and computer to print the lessons.

Sir, I am asking for some Bibles if you; new believers need them. Lastly, I would like to thank you for introducing these life changing lessons to us. May God bless you and other partners in the vineyard of God. Amen

Yours in Christ Jesus,

Chambwilo Moses
Student of Grace Notes
