REF: BENEFITS OF GRACE NOTES

Reference is made to the above subject matter.

I write to let you know that Grace has been beneficial to me, my family, school pupils, church and fellow pastors in the following way:

1. My preaching has improved because before I learned Grace Notes, I didn't know how to preach expository sermons. Grace Notes has taught me how to preach. In addition to preaching, through Grace Notes I have to understand the true biblical doctrine. Courses such as Doctrines 100, 200 etc. have built my doctrinal beliefs while courses like Titus, Ruth, Romans, Acts, and Hosea etc. have taught me how to preach expository sermons. Books like Foundations 100, 200 etc. have taught about the background of the Bible. Historical books have taught about the History of the Jews.
2. School pupils have also benefited from Grace Notes. Cases of immorality in schools such as drug abuse, fornication and other vices have reduced in schools where Grace Notes lessons are taught.
3. Grace Notes lessons have promoted church growth both spiritually and numerically.
4. I would like to let you know that I have also been using Grace Notes to reach out to Moslems and other Religions of the world that are found in Zambia.
5. I am also using Grace Notes in hospitals and prisons. I print lessons especially Doctrine 100 and give them to patients in hospitals and prisons. Patients read on their own and contact me when they are discharged from the hospital for continued discipleship. I also drop lessons in prisons. The challenge I have experienced is that there is high demand for Bibles in hospitals and prisons. I wish you can help me in this area.

In conclusion, I would like to state that Grace Notes lessons are a blessing to us in Zambia. Zambia is being transformed because of Grace Notes. We still need your support financially so that we can create more Bible Classes. May God richly bless you.

Yours faithfully,

Chiti Barnabas
