Dear Warren

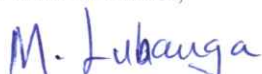

My name is Mwendabai Lubanga. My Instructor is Pastor Kalubangwe Nathan. I am currently in Unit 5, studying Paul 100. I have studied many courses and among them are: Doctrine 100, Titus, Ephesians, Life of Christ 100, Acts 100, Doctrine 400, History 300, Jonah John Malachi, Peter, Ecclesiastes, History 400, Doctrine 300, History 200 etc.

One interesting course I have studied is Doctrine 104. In this course, I have learnt about the following subjects: The Barrier, Imputation, Justification, Propitiation and Reconciliation. According to your notes sir, the word "barrier" has been coined by Bible teachers to refer to those characteristics of man and of God which cause man to be alienated from God. The Barrier represents mankind's need to be reconciled to God by the grace of God. Every person has a retroactive "position" in Adam. Because Adam died spiritually, every person is born spiritually dead. This problem is solved by God's offering to us a "position" in Christ, a condition which forms the basis for the doctrines related to Positional Truth

I will fail you sir if I don't mention that I did not even know there was a theological word barrier. The lessons have changed my life and I am also using these lessons to change other people's lives. I am a preacher whom many people think I have a degree from a renowned theological Seminary or university. I have been preaching expository sermons and so far I have preached from Philippians, Ephesians, Titus, Luke etc. It takes me more than three months to finish preaching from one book. Sometimes I just preach from one single verse. This surprises many people because they do not expect someone to preach from one verse.

I am requesting if you can send me some Bibles and Holy Communion plates. Here we use big cups but they are not hygienic. Another concern I have is that I would like to be an instructor both for pupils and pastors but I have no means financially. If you can help me I will really appreciate. I would like to ask you to continue praying for us because there is much hunger and poverty in Zambia. We have been experiencing drought in Zambia. Many crops are drying up, a situation that has made many people become impoverished and destitute. This has affected our financial contributions for printing expenses.

Yours in Christ,

Mwendabai Lubanga
