Dear Mr Doud,

I would like to appreciate you for introducing me and my family to Grace Notes courses. These lessons have transformed my life both physically and spiritually. I have been transformed spiritually in many areas such as spiritual growth. I have also been transformed in the area of teaching and preaching.

My church has also been transformed because I use Grace Notes for teaching and preaching. The church is growing both spiritually and numerically.

Classes for pastors and church leaders have also benefited from Grace Notes through the teachings they have been receiving. The pastors and church leaders are able to preach and teach the word of God effectively.

Pupils have also benefited from Grace Notes as their lives have been transformed. Many pupils were abusing drugs but this is no longer the case.

Lastly, I would like to thank you for the borehole and irrigation system. The community has enough water and we are able to grow crops throughout the year. We are slowly eradicating poverty in the community through the water system you helped us establish. If there was an opportunity, you would have helped the people in Shangombo District in Western Province.

Yours in Christ

Ngosa Maybin
