

Church of God Ministries,
Chilubi Island, Chilubi,

10th September 2021

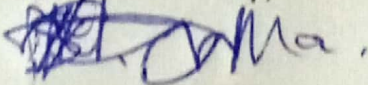

To Warren Doud,

Dear Sir,

My name is Silamba Matthews. I live at Chilubi Island where I do fish business. We catch the fish and then we sale. Life has been a challenge because of COVID-19 many people are not moving, as a result there is no business. Apart from that, we have problems with fishing equipment such as nets and boats. We can make more money if we have speed boats but speed boats are very expensive. It is an item for prayer that one day, God will bless me financially to enable me to buy a speed boat. Speed boat is a source of income because apart from using it for fishing, it is used to transport people across the Island.

Having introduced myself, I wish to state that I have greatly benefited from Grace Notes courses. All the lessons that I receive I put them in the file which I use for teaching and preaching. My library is expanding because of Grace Notes. I don't have to worry about what kind of message I am going to preach. I am getting equipped on the daily basis as if I have gone to a Bible College. I intend to start a class for pupils when I have money. There are many schools that need help in terms of the word of God. Many people here are lost as a result of false teachers. Many pastors here are not trained and so they mislead many followers and disciples. May God bless you for introducing us to Grace Notes Courses whose training many people lack. Help me by praying for me so that I can raise money for the Bible Classes both for pupils and Pastors. Because of Grace Notes Certificate, we managed to register our Church which has been operating for more than 10 years without registration because the pastor had no certificate to back up his qualifications. I thank you.

Yours faithfully,

Silamba Matthews
